POTSDAM WAR COUNCIL JULY 5 PLUNGED EUROPE INTO BLOOD WITH SUPPORT OF GERMANY

(By Associated Press.) WASHINGTON, Aug. 3.—Officials here have positive information that former Foreign Secretary Zimmermann admitted that Germany had possession of Austria's ultimatum to Serbia 14 hours before it was delivered to Belgrade. This information

regarding the action precipitating the European war is made public for the first time. Germany has maintained that she was not consulted by Austria as to the ultimatum which practically denied Serbia's independence and had no knowledge of the step.

Zimmerman's admission fits in with recent statements that German-Austrian leaders held a war council at Potsdam July fifth, practically deciding to plunge Europe in the conflict. It is believed that Germany had full knowledge of Austria's plans, and stood unreservedly behind her.

"This is the third anniversary of the violation of Belgium by Germany. Three years ago last night my government received a most insulting communication from the

German government demanding that we allow German troops to pass through our land and offering a bribe. There was not one dissenting voice to the reply our cabinet sent to Germany that night."

The low temperature came too late, however, to avert another long list of deaths. The board of health announced that 67 persons had been killed by the heat and there were hundreds of prostrations. Dr. Chas. F. Bolduan, director of public health education, declared that most of the 878 deaths which have occurred in the city since Sunday were caused by the high temperature.

TOKIO, Aug. 3.—Interpellating the government about the health of the nation Baron Kenkwan Takagi, a well known medico-scientist, speaking in the house of peers, declared that there was a gradual enfeeblement in the physique of the young men which was discouraging. He asked whether the government was considering any measure for the improvement of the health of the empire.

McKinnon was in Tonopah about three months ago but met with such a cool reception that he quickly left town by way of Ely where he said he was going to organize the miners of White Pine county. Evidently the citizens of Ely did not take any more kindly to the preachments of the I. W. W. representative than they did in Tonopah for nothing was done in the copper camp. McKinnon is well known here and still better known at Goldfield where he was head of the Western Federation of Miners after that organization had been captured by the U. S. soldiers into Goldfield to protect the town and mines from destruction by a mob.

KORNILOFF RESTORES MORALE OF THE RUSSIANS IN GALICIA

(By Associated Press.) PETROGRAD, Aug. 3.—That some degree of order and discipline is being restored in the armies of the southeastern front as indicated by recent official communications which show that resistance is being made along the Zbroz river, south of Husiatyn, is borne out by telegrams from army officers to the war department and by newspaper dispatches. Civilian Commissioner Gobeena, one of several sent home some time ago by the government to visit the various armies and endeavor to restore order, has sent the following message from the southwestern front: "I am happy to report that the

army of General Korniloff, namely, the Eleventh, which recently ran away, now is brilliantly repulsing the enemy in desperate fighting near Husiatyn. The Seventh also has made heroic counter-attacks. There is a marked change in the spirit of the troops which gives rise to the hope that they will fulfill their duty toward the revolution."

ability is applauded in military circles. General Brusiloff, who has become extremely pessimistic toward the military situation, was nevertheless urged by Premier Kerensky to withhold his resignation, at least until improvement had been achieved, but without avail.
